القياس	45.0X30.4cm
أقل نسبة ميلان	< 22.5°
الوزن	4.3KG
العدد للمتر الطولي	3.4 units
العرض للتركيب	29.4 cm
مفتاح التركيب	38.0 cm
عدد بالطبليّة	240

شهادات الجودة

A modern tile
The Diamant is a slightly cambered large format tile that won the Gold Trophy design winner at Batimat in 2003.

Brilliant, in all senses of the word.
The Diamant tile is decidedly modern, with its unique innovative aesthetics. This large slightly cambered tile gives a permanent pattern to the roof, thanks to its multifaceted surface.

Top quality
The Diamant tile is made in the Beauvais region from the area's finest clays, which guarantee its finish and its strength, which is guaranteed for roof pitches down to 22.5° minimum.
A tile with tremendous presence
In its modern pristine argentine colour the Diamant provides the perfect natural solution for contemporary building designs throughout the world, like a precious metal in our precious world. It has a special place and will put a smile on your face. Winner of the design trophy at Batimat 2003 and popularised in the programme D & CO.
